This speciman plan is to depict a plan prepared pursuant to Chapters 2.2 and 7 of the National Standards for the Survey of Canada Lands.

This plan shows:

- a survey of a building unit: and
- geo-referencing to NAD83 CSRS using Precise Point Positioning.

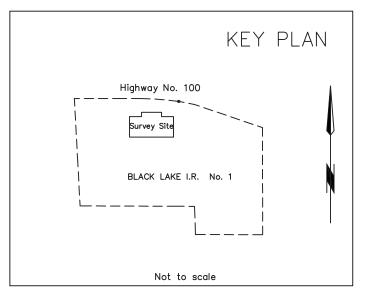

| Station | Northing | Easting | Combined Scale Factor | Estimated Absolute Accuracy | Ellipsoidal Height |
|---------|--------------|------------|-----------------------------|-----------------------------------|-----------------------|
| GCP1 | 4,894,837.93 | 333,313.25 | 0.999945 | 0.05 | 601.32 |
| GCP2 | 4,894,837.93 | 332,508.58 | 0.999945 | 0.05 | 602.97 |

Coordinates for GCP1 and GCP2 are NAD83 (CSRS), Epoch V4 (2002.0), and are derived from Precise Point Positioning.

SPECIMEN ONLY

Free space must be provided for the CLSR Registration block

PLAN OF SURVEY OF BUILDING UNIT 1 WITHIN BLACK LAKE INDIAN RESERVE No.1,

PLAN 74961 CLSR

RED RIVER, BRITISH COLUMBIA

(FOR LOCATION DESCRIPTION, SEE CHAPTER 2.2, GUIDELINES FOR PREPARATION OF SURVEY PLANS)

SCALE 1:200

The plot size for this plan that will provide true scale and optimum readability is 452mm by 579mm

The surveyed was executed by (Name of Surveyor), CLS, during the period of (Date) to (Date)

LEGEND:

Bearings are grid derived from GCP1 and GCP2 and are referred to the central meridian of UTM Zone 11 (Longitude 117° W.)

| CLS standard post found —— —— —— —— —— | |
|--|------|
| Old pattern iron post found —— ——— ——— ——— ——— | ● IP |
| Building units dealt with by this plan bounded thus ———————————————————————————————————— | |
| Exclusive Use Area | FUA |

This plan shows the horizontal ground level distances in metres. To compute grid distances, multiply ground level distances by the average combined scale factor of 0.999945.

Measurements to and along the EUA are to outside surface at ground level.

The boundaries of the building unit are the outer surface of the exterior wall cladding at the bottom of the cladding. The dimensions of the building unit and from the building unit to the lot boundaries are to the face of the cladding at the bottom of the cladding.
